INTERESTS

- Playing tennis
- Cycling on my road bike
- Growing vegetables
- Cooking and dining with friends
- Going on bikepacking trips

ABOUT

At the moment, I am looking for a new challenge as a junior developer. In February, I will finish the bootcamp Full Stack Developer at Novi. I have a strong interest in sustainability and climate change. My strong points are working together, solution-orientated thinking, and my empathy. I would like to use these skills in a job to make the world a more sustainable place. In my free time, I like to do sports, grow vegetables, cook and dine with friends.

WORK HISTORY

📅 01/2020 - 01/2022

📍 De Clique, Utrecht
32 hours per week

Hub manager

The Clique is a circular start-up that collects the waste of restaurants to be upcycled and used as resources for new products. Those products are sold back to the restaurants. My job included end-responsibility for the collection team, the resources, and the hub processes.

📅 02/2019 - 02/2020

📍 De Volksbank, 's-HertogenBosch
36 hours per week

Business intern

My business internship at the Volksbank was at the IT department. My assignment was to research tools to measure the level of self-management of teams.

📅 12/2018 - 02/2019

📍 Enviu, Rotterdam
36 hours per week

Intern

At Enviu, they build companies that address social and environmental issues together with partners. My internship included investigating new sustainable innovations that could be applied within the leather industry.

📅 01/2017 - 01/2018

📍 UMC Utrecht, Utrecht
40 hours per week

Research intern

During a research internship at the Experimental Cardiology Laboratory, I was responsible for my own research project into cardioprotective extracellular vesicles.

📅 01/2016 - 05/2016
11/2016 - 12/2016

📍 Dutch Hospital Data, Utrecht
40 hours per week

Assistent manager service desk

At Dutch Hospital Data I worked as a customer advisor and as an assistant manager.

EDUCATION

📅 09/2022 - 02/2023 (expected)
