- Freshman eight of a student rowing club
- Weekly catering for family and friends

INTERESTS

- Attending NYJavaSIG meetings
- Playing tennis
- Solving Advent of Code puzzles
- Going on bikepacking trips

ABOUT

At the moment, I am looking for a new opportunity as a junior developer. I relocated from the Netherlands to New York City in September. I moved with my partner and I have an AED. I have a keen interest in environmental and social sustainability. My strengths lie in collaborative work, solution-oriented thinking, and perseverance. I am eager to apply these skills in a role that contributes to making the world a more sustainable place.

WORK HISTORY & PROJECTS

- 📅 10/2023 - present
📍 Trailblazers, Remote | Parttime

Junior Full Stack Developer

After my move to New York, I am still working on the project of my former employer Trailblazers. Please see the description of the project below

- 📅 03/2023 - 09/2023
📍 Trailblazers, Amsterdam | Fulltime

Junior Full Stack Developer

Trailblazers is a small consultancy company organized following the guidelines of Sociocracy 3.0. I worked on a project, which was the development of an application for the administration around the maintenance of automated external defibrillators. The application consists of a RESTful API built with Spring Boot and a frontend built with Angular. My responsibilities included implementing new functionalities in both the frontend and the backend.

- 📅 09/2022 - 02/2023
📍 Novi, Utrecht | Fulltime

Student Full Stack Developer

As the final assignment for my Full Stack Developer bootcamp, I have created a prototype for a web application. This included the design process and coding the application. This application is a platform that allows a hobby chef to send a menu to friends and family, so they can order a meal. The chef can also manage all aspects of menu orders and deliveries on the platform. The application comprises a RESTful API built with Spring Boot and a modular frontend built with React.

- 📅 01/2020 - 01/2022
📍 De Clique, Utrecht | Fulltime

Hub Manager

The Clique is a circular start-up that collects the waste of restaurants to be upcycled and used as resources for new products. Those products are sold to the restaurants. My job included end-responsibility for the collection team, the resources, and the hub processes.

- 📅 02/2019 - 02/2020
📍 de Volksbank, 's-Hertogenbosch | Fulltime

Business Intern at IT department

- 📅 12/2018 - 02/2019
